

## 2008 Trip Group Sizes (includes leaders)

The Adirondack Mountain Club has requested its chapters to limit the number of people on trips in Wilderness Areas to 12 including the leaders. The High Peaks Unit Management Plan, signed by the Governor in March 1999, limits the number for day trips to 15 including the leaders. The Lake Placid Outing Club has used a self-imposed limit of 12 in the Adirondacks and 10 out-of-state for several years before the law was passed and has generally done better than that on 95% of our trips. (Large numbers are on raft trips or base camps only)
